

Slot Route Management System

- Game Activity Monitoring
- Payment Dispenser
- Player Loyalty

Create Loyalty to YOUR BRAND

BOSS is a comprehensive loyalty system with benefits that rival those of much larger gaming operators and, best of all, it's **YOUR BRAND**.

- Touch-screen LCD display
- Player Log-In Options (cardless options)
- Player Self Redemption
- At-Game Promotions
- Player Bonus Celebrations
- Multi-Site

“Interactive Touch Screen Display” is a forward facing tool for the player to stay connected with the EGM and the property. The player has control to download free-play to the EGM. The dynamic buttons adjust based on the players free-play balance.

The interactive touch screen also displays the player's point balance and session points. In addition it displays At-Game promotions & marketing messages.

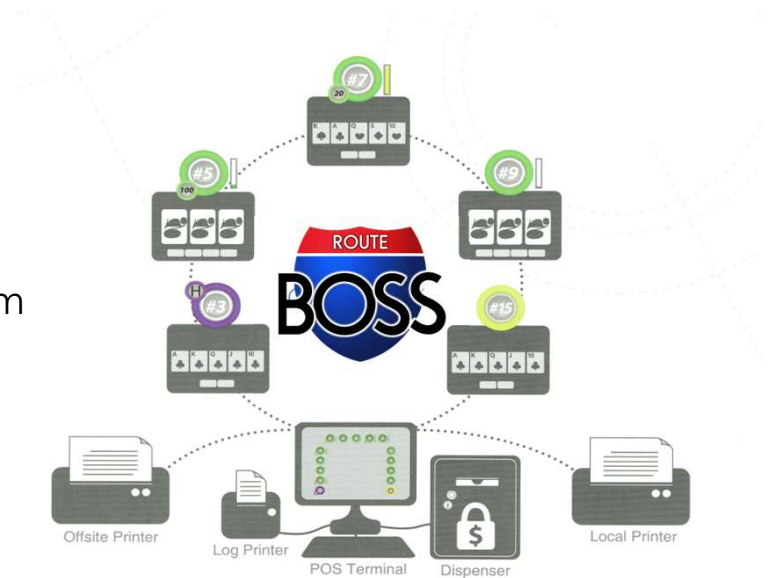

“At-Game” Promotions reward players on the interactive touch-screen display at the EGM. Celebrate the player for birthdays, club/wedding anniversaries; but also for play activities such as Earn & Gets (play based goals) and poker hand evaluators such as Card of the Day and 4-of-a-Kind cover-all.

- Fully Integrated Gaming System
 - Real-time data
 - Jackpot functions
 - Increased security
 - Employee accountability
 - Robust reports
 - Single-wire functionality
 - Automated drop process
 - W2G management

- Payment Dispenser
 - Secure Payout Dispensing System
 - Secure Cash Storage
 - Monitor All Cash Transactions
 - Sleek, Discreet Under-Counter
 - Multi-Denom Cassettes
 - Two to Six Cassette Available
 - \$1 to \$100 Bill Cassettes

- Off-Site is On-Target

You don't have to be on-site to gain access to user data and player activity information. The BOSS System provides you off-site access to all gaming activity through a secure, web-based interface.

 - Assign user rights to employees
 - Setup promotions
 - Run a variety of gaming and administrative reports
 - Manage customer information
 - Manage and track employees

Data Access via any remote PC, smart phone or tablet.
